Cost: \$ 750.00

Course meets all OSHA and NFPA Requirements.

NPQB National Certification Trench Rescue Technician upon Satisfactory completion of written and practical test.

Prerequisite for certification: Michigan First Responder, Operations Hazardous Materials, Letter from Sponsoring Agency stating student meets the following: Age Requirement, Medical Requirements and Physical Fitness as required by the Sponsoring Agency.

TR2001 Trench Rescue Level Two (Technician): 48 hours
A comprehensive Class designed to be compliant with NFPA 1006 and OSHA requirements. A comprehensive Class that incorporates hands on training and skill stations to provide the student with an understanding of trench rescue techniques and the equipment associated with safe practices of trench rescue. The Class will address proper operational procedures and the use of specialized equipment. A significant emphasis will be placed on safety for both the rescuer and victim(s). This Class meets or exceeds NFPA and OSHA requirements. The student will be able to describe the hazards, classifications, equipment and procedures for trench rescue from memory without assistance. The student will complete a written examination and pass/fail practical skill stations. Course includes Level One and Certification testing.
